VERY PERSONAL CARE FOR EXCEPTIONAL HAIR

In 1964, in a world in which a hair routine was purely about hygiene, Kérastase invented care for hair. Inspired by our intimate knowledge of the modern woman, Kérastase continues to create bespoke products and treatments that satisfy the desire for exceptional hair.

At Kérastase we believe there is more than one interpretation of beauty which is why we work with the best hairdressers to provide the ultimate solutions to care for hair.

We create iconic products with rare and highly concentrated ingredients that penetrate deep into the fibers, healing the hair from the inside out.

The result is hair that is resilient, strong, and deeply nourished.
